DETAILED ACTION

This action is in response to the amendment received on 21 June 2006 in which claims 4-7 are pending.

Reasons For Allowance

The following is an examiner's statement of reasons for allowance:

The instant application is deemed to be directed to a nonobvious improvement over the invention patented in Pat No. 6,385,328 in view of Pat No. 6,723,761.

With respect to independent claim 4, the nonobvious improvement comprises a speaker comprising: a support mounted on the center magnetic pole of the magnetic circuit including an induction coil wound around the support, and at least one light source held in a holder secured to the end of the support for directing light onto the cone-shaped diaphragm which is energized by the induction coil

And, for these reasons in conjunction with the other functional language described and connected in claims 1-20, the instant application is found to be directed to a nonobvious improvement.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
